INDEPENDENT CONSULTANT

Aurèle Soyez

Senior Project Manager

Infrastructure · Cybersecurity
IT Transformation

Over ten years’ experience scoping and delivering IT transformation projects in France and internationally. Coordination of business teams, technical specialists and vendors, from decision-making and acceptance testing to operational handover.

PROFESSIONAL EXPERIENCE

Local government

05/2026 – Present

Infrastructure & Security Project Manager

Infrastructure transformation in a live IT environment.

- Manage data centre, network, telephony and virtualisation projects: scope, dependencies, resource estimates and responsibilities.
- Coordinate internal teams and systems integrators on Fortinet and F5 ASM/APM/LTM security projects: web protection, MFA and redundancy.
- Prepare options and full cost estimates for decisions; track deliverables, define acceptance criteria and plan operational handover.

Government of Monaco

05/2023 – 04/2026

Business IT Project Manager / Solution Manager

Interoperability and streamlined online public services on MonGuichet.mc.

- Defined the target functional architecture, API models and data schemas for exchanges between government departments.
- Established data governance: ownership, security and consent requirements, and traceability of data use.
- Coordinated **business, IT, security, legal and architecture teams**; managed specifications, acceptance testing and deployment readiness.

Bolloré Transport & Logistics

08/2020 – 04/2023

Solution Manager / Cross-functional Project Manager

Group-wide TMS and OMS transformation covering more than 70 countries.

- **Eight months of operational coordination**: coordinated 5 project managers and approximately 30 in-house and offshore developers.
- Scoped the architecture and interfaces across TMS, ERP, customs and finance; defined the roadmap, resource needs, dependencies and decisions.
- Led steering committees; oversaw releases, integration testing and international production deployments.

Aurèle Soyez

SENIOR PROJECT MANAGER

INFRASTRUCTURE

Data centres and networks
Virtualisation and storage
Backup and continuity

VMware · Hyper-V
SAN FC · Veeam
MPLS · Centreon

CYBERSECURITY

Security project delivery
Fortinet and F5
ASM / APM / LTM

IT INTEGRATION

API flows and master data
Data governance
Functional architecture

API REST · SQL · JSON
Keycloak · API Gateway
CargoWise · TensorFlow

METHODS AND TOOLS

PMI / PMBOK framework
PMP training
RACI · Roadmap · Risks
Agile / hybrid · V-model
Jira · Confluence · Redmine
Power BI · Postman

Aviation
PPL(A) training in progress

PROFESSIONAL EXPERIENCE CONTINUED

Cyclope.ai / Vinci Autoroutes

11/2019 – 07/2020

AI Project Manager – Technical & Functional

Automated detection on critical road infrastructure.

- Scoped integration between AI components, APIs, operational tools and monitoring systems.
- Managed **TensorFlow trials at pilot sites**, validation scenarios and operational readiness.
- Coordinated AI teams, operations and technical partners to improve the reliability of real-time use cases.

Bolloré Transport & Logistics

03/2017 – 09/2019

IT Project Manager / Solution Manager

LINK Mobile, a web and mobile platform for transport operations.

- **Designed and deployed a solution used in more than 70 countries**; scoped business processes, APIs and data.
- Prioritised the backlog and managed releases and international rollouts.
- Led user workshops and coordinated business, development and operations teams through to go-live.

Carlipa

09/2015 – 02/2017

Digital Project Manager / Interactive Experiences

Digital experiences for luxury brands and retail.

- Managed scoping, design, development and hardware integration, including budgets, acceptance testing and international rollouts.

Air France

09/2012 – 08/2015

Network Engineer / IT Project Manager (apprenticeship)

Cockpit mobility and infrastructure projects.

- Coordinated vendors, network and fibre deployments, and architecture diagrams; developed a scanning and compliance tool in Python / Java.
